## COURSEWORK

### UNDERGRADUATE

- Data Structures and Algorithms
- Object Oriented Programming
- Design and Analysis of Algorithms
- Operating System
- Database Management System
- Computer Networks

## PROJECT

### WEATHER WEBSITE

Live Site | 2022

- Build with **HTML**, **CSS**, **JavaScript**, and **RAPID API**.
- A global weather app with real-time updates, advanced forecasting models, and intuitive user interface for seamless user experience.

### GIFTS WEBSITE DESIGN USING HTML AND CSS

2022

- Completed online flower buying user interface using **HTML** and **CSS**. This will help people to seek flower pots and put them to add to a cart and CSS give a layout to it.
- I also completed my resume as a web page that will describe my thing in one user interface.

### PERSONAL PORTFOLIO

2023

- Build with **HTML**, **CSS** and **JavaScript**.
- My personal portfolio project showcases my skills. It features a clean and responsive design, highlighting my work, about me section, and contact details.

## ACHIEVEMENT

### CYBER SECURITY (NECTF)

- Advanced cyber security knowledge through participation in NECTF, ranking **55** globally among **30** countries, specializing in network security and threat analysis.

### 300+ DSA PROBLEM

- Successfully solved 300 DSA problems, showcasing exceptional problem-solving skills and a strong understanding of data structures and algorithms.

## CERTIFICATION

### Java Bussiness Application

- Received IIT Bombay certification for **15-day** Java application training, proficient in developing applications.

### AWS cloud computing

- Completed a comprehensive **20-day** training program on AWS Cloud Computing and received an official certificate.

### CoerJAVA

- Successfully completed the Java programming course on Coursera, gaining expertise in object-oriented programming.
